Made to measure, made to last!

The elegant appearance and strength of Superior Steel Slatting make it ideal for adding privacy, beauty and safety to any area. Superior Steel Slatting is manufactured from BHP Colorbond® steel and can be custom made to suit almost any application, making it the smart way to look at lattice!

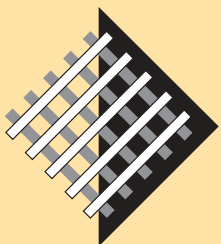

100% Australian Made

Superior Steel Slatting is a unique roll formed lattice strip which is available in custom lengths to suit individual applications. Superior Steel Slatting can be supplied in prefabricated panel form, or professional installation can be arranged on request.

To suit your surrounds and colour schemes, Superior Steel Slatting is available in the complete Colorbond® colour range, or can be powder coated to suit your unique requirements.
